Illegal parking detection technology based on CNN deep learning: When a vehicle has been detected in the no parking zone, snapshots will be taken and metadata will be saved. Dahua Illegal Parking Solution detects illegally parked vehicles in real time with a recognition rate of 90%, which greatly improves detection efficiency.

• High Detection Rate

Illegal parking detection algorithm provides detection accuracy of up to 90%, ensuring no wrong detection will be made.

| Capacity		
Detection Rate	up to	**90%**
Recognition Rate	up to	**90%**
ANPR Algorithm		
Existing ANPR Algorithm		**58**
Supported ANPR Algorithm		**11**

• Multi-Vehicle Detection

Multiple illegal parked vehicles in the no parking area can be detected.

• Multi Scene Detection

Multiple setting options can be preset to expand the coverage, with capturing radius of up to 150m.

150m   150m

• Complete Chain of Evidence

Save several images and metadata of the vehicle parked in the no parking zone to provide ample evidence for investigation.

Illegal parked time: 2020-04-04 14:30:12 | Illegal parking location: DA road

Product Selection

DSST9100

ITSE0804

Traffic Parking PTZ Camera

Highlights:

Professional and complete illegal parking detection solution.
Single Traffic Parking PTZ Camera can detect illegal vehicles up to 300 meters.

Product Selection:

Platform		• DSST9100
Recorders		• ITSE0804
PTZ		• SD8A440-HNT-WA

Application Scenarios

Crowded Area

High-traffic Area
